Title Optimal Stochastic Interventions with High-dimensional Data
Version 0.0
Authors Connor Jerzak connor.jerzak@austin.utexas.edu [aut, cre]', 'Kosuke Imai imai@harvard.edu [aut]
Description Software for performing optimal stochastic intervention analysis with high-dimensional data.
Depends R (>= $3.3.3$)
License Creative Commons Attribution-Noncommercial-No Derivative Works 4.0, for academic use only.
Encoding UTF-8
LazyData true
Maintainer 'Connor Jerzak' <connor.jerzak@gmail.com></connor.jerzak@gmail.com>

cv.OptiConjoint
cv.OptiConjoint Implements
Description
Implements
Usage
<pre>cv.OptiConjoint()</pre>
Arguments
x Description

2 OptiConjoint

Details

```
cv.OptiConjoint implements...
```

Value

z Description

Examples

```
# Perform analysis
cv.OptiConjoint <- OptiConjoint()
print( cv.OptiConjoint )</pre>
```

OptiConjoint
